3. HOW TO PLAY

1. Spray repeatedly to get Donkey Kong up to the top of the vines and to zap the bees.

2. A power spray can is attached to the vine. Spray Donkey Kong up to where the power spray can is attached and it will drop down to where Stanley can pick it up. Use it when Stanley is in trouble and needs to fight back.

*The effects of the power spray wear off after some time.

3. The score for zapping a bee depends on the type of attack the bee makes.

Queen Buzzbees must be zapped twice. In the end, they explode and scatter all over the place so you have to be careful not to get hit by them.

4. The bees come to get the flowers at the bottom of the screen. Zap them before they return to their nest. Successfully guarded flowers count as bonus points.

* Depending on the timing of your sprays, the vines in the center of the screen may disappear, but this does not affect the game.

5. "Creepies" slowly come down from the palm trees to attack. Their movements are slow, but they quickly revive after being sprayed. Chase back the ones in the trees, and knock out the ones on the floor. When a creepy is knocked out, you can safely walk past it.

6. There are three different rounds. After round three, you go back to round one.
